SibWings An2

A: I'm currently working on making a FDE for the Sibwings An-2 for FSX. I'm creating an external solution to make an installer. There are two parts of the installer 1) This is where you will find the FDE. It is basically the same as the one you can download from the official website 2) You will find this which is a customized version of the stock files. I will put this mod up on GitHub and FTP to the FTP of the Sibwings forums once I am done. Once all is done I will post the download link to this mod here. You can download it from GitHub here: A: Found a custom FDE for FSX here: You can download here: Sibwings_An2_FDE After a lot of confusion on the forums and on Facebook, I received a message from the company's admin answering my problem. Thank you so much for your support! You made this happen! Almantor_k Q: how to read json string Below is my JSON Response. when I read this string json as a string and converted to array using `JSON.parse(response.body.toString());` how to read json using this string? And now I can get json data in above api but I don't get that detail it shown by api { "status": 1, "success": "1", "message": "Sucessfully created", "data": { "id": "9", "name": "abc", "workplace": "def" } 3da54e8ca3
