This is a 2k19 NFS Underground CFG file! Q: How to plot data in a scatter plot matplotlib? I use numpy to get random data: import numpy as np import matplotlib.pyplot as plt X = [] Y = [] while True: X.append(np.random.randint(0, 20, 10)) Y.append(np.random.randint(0, 15, 10)) I'm trying to create a scatter plot by using a for loop, however I'm not quite sure how to add the labels and colors to each point. for i in range(0, len(X)): plt.scatter(X[i], Y[i]) How to improve my codes? A: You are almost there: import numpy as np import matplotlib.pyplot as plt X = [] Y = [] while True: X.append(np.random.randint(0, 20, 10)) Y.append(np.random.randint(0, 15, 10)) for i in range(0, len(X)): plt.scatter(X[i], Y[i]) plt.annotate(str(i), xy=(X[i], Y[i])) plt.show() If you need your code a bit more compact, you d0c515b9f4
